CTG Federal is a small business that excels in servicing dozens of federal defense, intelligence, and civilian organizations with IT expertise and solutions. We are specialists in designing and implementing next generation IT solutions that help save time and money for our customers. Our areas of practice include data center, hybrid cloud, networking and cyber security solutions and services. Headquartered in the greater Washington DC area, CTG Federal has satellite offices in throughout the United States.

We understand the use of a punchout catalog improves efficiency and minimizes errors enabling DOE to manage procurements better. We offer a best-in-class, feature-rich electronic shopping catalog (punchout catalog) with capabilities that function like standard commercial eCatalogs with add-on features that meet and exceed the ORNL's requirements. Our cloud-based punchout catalog enables DOE to connect directly through their own procurement system to CTG Federal's punchout catalog on the front and back-end access to our suppliers' hosted catalogs allowing just-in-time accessibility to information like inventory, availability, shipping dates, etc.

We partner with a broad network of Original Equipment Manufacturers (OEMs) and established distributors to offer thousands of IT products and services for hundreds of U.S. Federal Agencies.

Out of our hundreds of partners, these vendors have already been implemented into the ORNL community:

AddOn Networks • Adobe • AlgoSec • Arista • Atlassian • Ciena • Cisco • Commvault
DDN • DellEMC • Ekahau • EndRun • F5 • Flywheel • Fortinet • Google • HP • INE • Lambda
Mellanox • ModernCyber • Motivair, Nereus • NetApp • Nozomi • Nvidia • Palo Alto • Pantheon
Proofpoint • Red Hat • SANS • Scythe • SuperMicro • Synack • Tines • TrippLite • VMware

Our full range of IT solutions includes:

Equipment for Enterprise Server, Storage, Network, Cyber Security End User Client, and Peripheral components

Software and subscriptions to complete the hardware solutions

Related incidental services including, but not limited to, integration, installation, configuration, maintenance, and upgrades

Maintenance and Warranty Support of legacy IT equipment
