CTG Offerings & Contracts for ORNL

CTG FEDERAL
Cohesive Technology Group

CTG Federal, a Cohesive Technology Group company, is an SBA-certified small business that excels in servicing dozens of federal defense, intelligence, and civilian organizations with best-in-class information technology. Our experienced team of sales and engineering professionals design and deliver IT hardware and software solutions that save time and money for our customers. Headquartered in Virginia, we have dedicated resources in all regions across the continental United States.

We understand the use of a punchout catalog improves efficiency and minimizes errors enabling DOE to manage procurements better. We offer a best-in-class, feature-rich electronic shopping catalog (punchout catalog) with capabilities that function like standard commercial eCatalogs with add-on features that meet and exceed the ORNL's requirements. Our cloud-based punchout catalog enables DOE to connect directly through their own procurement system to CTG Federal's punchout catalog on the front and back-end access to our suppliers' hosted catalogs allowing just-in-time accessibility to information like inventory, availability, shipping dates, etc.

We partner with a broad network of Original Equipment Manufacturers (OEMs) and established distributors to offer thousands of IT products and services for hundreds of U.S. Federal Agencies.

Out of our hundreds of partners, these vendors have already been implemented into the ORNL community:

AddOn Networks | Adobe | AlgoSec | Arista Atlassian | Broadcom | Ciena | Cisco | Comet Commvault | DDN | Dell Technologies | Ekahau EndRun | F5 | Fortinet | GigaIO | Google | HP | INE Kubernetes | Lambda | Mellanox | ModernCyber Motivair | NetApp | Nozomi | nVent | NVIDIA | Omnissa Palo Alto | Pantheon | Proofpoint Rancher | Red Hat SANS | Scythe | SuperMicro | Synack | Tines | TrippLite VMware by Broadcom

Our full range of IT solutions includes:

MODERN INFRASTRUCTURE
Data center solutions for a more centralized, efficient IT environment; improved user experience; and streamlined management and maintenance.

HPC & AI/ML + GENAI
Compute, networking, and infrastructure solutions to leverage the power of artificial intelligence and machine learning while protecting proprietary data and intellectual property.

CYBERSECURITY
Cybersecurity architecture and processes that help identify risk, optimize resources, and create integrated solutions that reduce risk.

ADVANCED NETWORKING
Virtualized, resilient, smart, powerful, and secure network solutions for the backbone of your business operations and service-delivery.

HYBRID CLOUD
Expertise and solutions to determine the best model to meet your business needs, leverage and optimize investments, and avoid cloud deployment blind spots.

UNIFIED COMMUNICATIONS & CONTACT CENTER
Next-generation employee and customer experiences leveraging collaboration, omni-channel, AI, and the cloud.

CTG Federal stands out from other value-added resellers due to the exceptional quality and experience of its engineering team. Our staff includes a NetApp A-Team member, representing the pinnacle of NetApp engineering talent globally, and the former Chief Technology Officer from NASA's Advanced Supercomputing Division. Additionally, our team boasts the former Deputy CIO of the GSA, enhancing our strategic and technical depth. Our accolades include being a CRN Tech Elite 250 award winner, a distinction given to top solution providers in North America who have achieved the highest partner program levels and numerous technology certifications from industry giants like Adobe, AWS, Cisco, Dell Technologies, Google, HPE, IBM, Intel, Nutanix, Oracle, Palo

Alto Networks, Sophos, and VMware by Broadcom. Our team also features NetApp NCIEs, Cisco CCIEs, VMware Advanced Professionals, and many other top certifications, showcasing our extensive technical expertise.

What truly sets CTG Federal apart is the quality of our solution architects and engineers. Having experience as both customers and manufacturers, they possess a unique understanding of the customers' business and requirements. This insight allows them to tailor solutions and products to fit the customer's needs, rather than forcing a one-size-fits-all approach. Our commitment to understanding and addressing specific business challenges ensures that we deliver solutions that are not only technically superior, but also aligned with our customers' goals.

CTG's implementation of our robust Nurture Program is also one of our differentiators. It is designed to maintain focus on our customers 365 days of the year. CTG consistently earns our Federal customers' trust through our engineering expertise, our collaborative "customer-first" approach, and the wide range of complimentary IT solutions – all designed to offer our customers new and innovative technologies for ongoing challenges and backed by our ongoing focus and commitment to customer satisfaction/success.

RENEW

IMPLEMENT

PURCHASE

DELIVER

EXPAND
TRACK

TRACK
- CTG processes the customer purchase order and uploads the order information to the Order Status Tool.
- CTG works to provide an estimated ship date (ESD) for the products purchased withn 3-5 busness days from the date processed while managing and updating the tool weekly.

DELIVER
- CTG adds shipping/tracking information to the Order Status Tool. For electronic orders, CTG includes serial numbers, license keys, and period of performance dates at the line item level.
- All proof of delivery/entitlement information is uploaded to the Order Status Tool for the customer to download.

IMPLEMENT
- The customer works to install, download, implement licenses into their environment. CTG Technical/ Architecture Team is available for support assistance.
- CTG and OEM professional implementation services are engaged and tracked to completion (if purchased).

EXPAND
- CTG Sales Team works with customer to help identify IT needs and/or improvements to their environment.
- CTG Engineering and Solution Architects provide technological evaluations, product demonstrations, and capabilities presentations all designed to analyze cost benefit and ROI.

RENEW
- CTG assists with tracking upcoming renewal/ subscription dates to assist with tech refreshes and new product purchases.
- CTG Sales and Solution Architect Teams to provide recommendations on technology lifecycle refresh analysis.
- CTG works closely with the customer and OEMs on co-terming disparate systems and software renewals to ensure POP dates are properly aligned and do not lapse.

With our sourcing partnerships for all solicitations, we provide the following timeline capabilities:

✓ Same-day order booking

✓ 24x7x365 phone line for customer support around the globe

✓ Defense Priorities and Allocations System Program (DPAS)-rated ordering to expedite task and purchase orders, ensuring timely resource availability to meet national defense, energy and emergency preparedness requirements

✓ Drop-ship and partial or complete-ship solution options

✓ Advanced solution integration—prior to shipping— with tailored options to meet mission needs (such as asset tagging [UID, RFID, etc.], initial configuration or repackaging)

✓ Expedited and secure shipping options

CTG Federal is NIST 800-171 compliant and is also CMMC 2.0 Level 2 mapped for compliance, ready for formal completion as soon as C3PAO's are certified and authorized to perform audit. In addition, we have obtained O-TTPS certification, ensuring the integrity of our products and the security of our supply chain. As of 2023, CTG Federal is ISO 9001 certified.

CTG Federal's contract management capability is more robust than ever, ready to support the mission and IT strategies needs of our customers. We employ a powerhouse of talent that has experience managing IDIQ contracts and Government-wide Acquisition Contracts (GWACs), including the Army's Information Technology Enterprise Solutions-3 Hardware (ITES-3H), Army's ITES-Software (SW2), DHS's FirstSource II (FSII), NIH's NITAAC IT Commodities and Solutions (CIO-CS) and NASA's Solutions for Enterprise-Wide Procurement (SEWP).
